# ATAK BASICS

Locate and Chat with app users

Line and Shape Dropper

Navigate

Video Player

Point Dropper

TAK Server Connection Status (green = connected)

Radial menu (open by tapping map icons. Provides various options depending on type of icon)

GPS Location (tap to center map on your position)

Details icon (tap to send an item and learn more about it)

Detailed description: This screenshot shows the ATAK app interface. At the top, there's a header with the TAK logo and the title 'ATAK BASICS'. Below the header, a toolbar contains several icons: a person icon for chat, a line and shape dropper, a location pin for navigation, and a play button for video. A callout box labeled 'Point Dropper' points to a specific icon. Below the toolbar, a map shows a location with a callout box displaying coordinates and other data. A callout box labeled 'TAK Server Connection Status (green = connected)' points to a green indicator. A large circular radial menu is shown in the foreground, with a callout box explaining its function. At the bottom, a callout box points to a 'Details' icon on the map.

# CALLSIGN SETUP

Set callsign by tapping then 'Settings,' and 'My Callsign'

Callsign standard varies by agency, generally this is your radio callsign or last name. Avoid any special characters in your callsign.

My Callsign: Schmidt

My Team: Cyan

My Role: Team Member

More Done

Detailed description: This screenshot shows the 'Callsign Identity' settings screen. It has a dark background with white text. At the top, it says 'Callsign Identity'. Below that, there are four rows of settings: 'My Callsign' with the value 'Schmidt', 'My Team' with 'Cyan', and 'My Role' with 'Team Member'. At the bottom, there are two buttons: 'More' and 'Done'. A callout box explains that the letters 'TL' will appear for team leader, 'HQ' for HQ, and '+' for medic.

Determines the color of your dot in TAK. Often ICS positions determine dot color, consult your agency for guidance.

The letters 'TL' will appear for team leader, 'HQ' for HQ, and '+' for medic. This may help differentiate users during an operation.

# POINT SHARING

Tap to open point dropper pane

Tap icon and 'details' button to see remarks and send icon to others

responders can enter remarks at the bottom of the details pane

Tap "SEND" to enter this pane:

Select individuals and hit 'send' or...

...tap 'broadcast' to share with everyone

Detailed description: This block contains three screenshots illustrating the point sharing process. The top screenshot shows a map with a point dropper pane open, with a callout box pointing to the 'SEND' icon. The middle screenshot shows the details pane for a point, with a callout box pointing to the 'Reported by security' field. The bottom screenshot shows the contacts list with 'SEND' and 'Broadcast' buttons, with callout boxes explaining their functions.
